AUDIO IN ONE CLICK
NEW PROEL WIFI SYSTEMS

www.commercialaudio.proel.com

The Proel Commercial Audio catalog is constantly evolving to give the users a wide range of solutions. Starting from today we have two new latest generation WIFI/Bluetooth products: **PA STWIFI** and **PA CS602WIFI**, which can be easily integrated and managed from a PC and/or from the **4STREAM APP!**

Among the various applications, the **PA STRWIFI** is particularly suitable for transforming a traditional system made up of an amplifier and loudspeakers into a system with WIFI remote control from a smartphone, while the **PA CS 602 WIFI** allows you to create a multiroom system with false ceiling speakers that can be managed from smartphones! Both products can be combined with each other in the same WIFI network and controlled by the same APP.

PA STRWIFI

WIFI BLUETOOTH USB AUDIO STREAMER

STRWIFI is a high end audio streaming receiver with network and Bluetooth connectivity. Applying STRWIFI to a PA system will enable you to stream music from your smart device, USB, NAS or streaming services, such as Spotify, Tidal or Qobuz in high resolution by 4 STREAM App, AirPlay Bluetooth or other third party compatible apps. Multiple units can be combined to set up a wireless multiroom or multizone whole audio system, for a new experience to play and enjoy music.
